## **STATEMENT OF WARRANTY AND CONDITIONS:**

The author of this report has made a good faith effort to accurately present the data and to reach conclusions relative to the subjects discussed herein; however, the author and its subsidiaries, if any, expressly disclaim any liability for any loss, damage and injury of any type which may be suffered as a result of any error herein or in the accuracy, completeness, interpretations, timeliness, or reporting of any information, whether resulting from negligence or otherwise.

No warranties or representations of warranties, expressed or implied, are given or are implied and warrant of merchantability for fitness for a particular purpose is expressly disclaimed.

The remedies available to users of this study and analysis are limited to recovery of damages not to exceed the price that they paid the author or its subsidiaries for the information or analysis. In no event shall the author or its subsidiaries be liable for consequential damages, even if advised of their possibilities.

Receipt of this study constitutes acknowledgement and acceptance of the notices and conditions stated above.

This report has been prepared exclusively for the sponsor and for his private use only. The sponsor is authorized to make such copies of this report as are necessary for his internal use. The reproduction or distribution of this report beyond the sponsor's own immediate organization, in part or in its entirety, is forbidden without the express permission of the author.
